Dewan)

13/11/22

I do not see much connection between the two questions. There is an epidemic now in the Asylum Compound. Hospital has also taken place. The time we had made use of closed the Mobile one - I therefore think it would be advisable to ask the Superintendent to select a site (why not use the present site) and submit a detailed scheme (one block of six cells to begin with) for the 2nd Member)

Mental diseases is an important subject in the Canara District & also in the whole Presidency. The hospital for mental diseases will have to be in the same place as the Medical College so as to expand facilities & students to attend the hospital for practical training. The Superintendent of the mental diseases hospital will perhaps be the professor in the College dealing with that subject. Hence the Committee of the Government & the Government & the Executive Council & the Medical Faculty may please be consulted before the plans & specifications & estimates are finally passed & sanctioned.

Adequate land for locating the hospital & the Nurses' Quarters is a very important point. Bangalore, ~~the capital place~~ where the Central Government is situated, is well adapted for the purpose. Besides there is the Central Tuberculosis hospital there and another hospital for mental diseases in conjunction with the Medical College hospital will make it good centre for mental diseases

Enclosure No. (one.)

Sir,

I am directed to forward herewith a copy of the remarks of the Mysore Government Official Visitors who met on Tuesday the 1st August 1922, for favour of your kind perusal.

I have the honor to be,

Sir,

Your most obedient servant,

Superintendent.

COPY OF THE REMARKS OF THE MYSORE GOVERNMENT OFFICIAL VISITORS WHO MET ON 1ST AUGUST 1922.

The present arrangements for the reception and treatment of lunatics are in the opinion of the visitors quite defective and even deplorable. The existing premises are altogether unsuited for the purpose of an asylum, both in respect of situation and accommodation. In the next place, there are not proper facilities for the reception and treatment of private paying patients, apart from those detained compulsorily. It is in the opinion of the visitors undesirable to keep together newly admitted patients, those under observation, and those found fit to be discharged; and improper to herd these, and harmless epileptics along with those of confirmed lunatic tendencies. There is not sufficient provision for harmless occupations and amusements to occupy the inmates during the best part of their waking hours. The visitors wish very strongly to urge that the question of construction of a new asylum should no longer be deferred in the interests of the welfare of the unfortunate class for which it is intended.
